REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the closest prior art is to WO 99/55465 ('465), which provides a method for supplying coating products to a spraying device using a principal tank that is displaced to the vicinity of a secondary tank. The principal tank is used to fill the secondary tank and then, from the secondary tank, coating passes to the spray atomizer. See the discussion in the Final Rejection of March 30, 2005. However, '465 does not teach or suggest the requirements of the claims as now worded, including the displacement of the secondary tank by robot means as required by independent claim 7 and the use of the temporary storage for the secondary tank and the mounting on a paint applying robot as in independent claim 9.

The Examiner notes the reference to Provenaz et al (US 6712285). However, this reference is not available as a reference under 35 USC 102 (a) or (b) qualifications due to the filing and issue date of the reference, and is not available as a 35 USC 102(e) reference because in papers filed August 3, 2004, applicant perfected priority back to October 19, 2000 by filing a translation of the foreign priority papers. This date is prior to the July 24, 2001 filing date of Provenaz. Furthermore, Provenaz is not available for obvious double patenting purposes as there is no common inventor or common ownership (since the present application and Provenaz have different assignee entities).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Katherine A. Bareford whose telephone number is (571) 272-1413. The examiner can normally be reached on M-F(6:00-3:30) with the First Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Timothy Meeks can be reached on (571) 272-1423. The fax phone numbers for the organization where this application or proceeding is assigned are (571) 273-8300 for regular communications and for After Final communications.

Other inquiries can be directed to the Tech Center 1700 telephone number at (571) 272-1700.
